Define Problem Statements (Customer Problem Statement Template)

The statements below describe the main user challenges that FitBuddy is designed to address, using the customer point of view as requested by the reference template.

FitBuddy user perspective Needs a simple goal-aligned workout plan, clear day-wise guidance, a complementary nutrition/recovery tip, and an easy way to refine the plan through feedback.					
---	--	--	--	--	--

Problem Statement	I am (Customer)	I am trying to	But	Because	Which makes me feel
PS-1	A fitness user who wants guided personal training	Get a simple plan matched to my goal and intensity	Generic online routines are often not tailored to my inputs	It takes effort to choose, adjust and keep a plan consistent	A clear 7-day plan and an easy way to refine it
PS-2	A user who wants to maintain a routine	Follow a day-wise plan that is easy to understand	Exercise information can be scattered across videos and articles	It is difficult to organize the right sequence and intensity	More confident about what to do each day
PS-3	A user whose needs change over time	Update my plan when I give feedback	A static plan does not automatically reflect my new preferences	I may stop following a plan that no longer fits	Supported because the plan can be revised
