Empathy Map

Create an empathy map to understand the target user from four perspectives: what they Say, Think, Do, and Feel.

SAYS 1. I need a plan for my goal. 2. I want simple day-wise workouts. 3. I want to change the plan when needed.	THINKS 1. Is this plan personalized to me? 2. Can I manage this workout intensity? 3. Will the plan adapt to my feedback?
DOES 1. Enters age, weight, goal and intensity. 2. Reviews the 7-day plan and tip. 3. Submits feedback to refine the plan.	FEELS 1. Unsure about what to follow. 2. Motivated by a clear routine. 3. Supported when the plan can be updated.

PERSONA

Fitness user
seeking a guided plan

Customer need summary: The user wants a guided, practical routine that is easy to understand and can evolve through feedback.
