Team ID	6ab7f6f8c23107aaaa72871e
Project Name	FitBuddy - AI Fitness Plan Generator using Gemini Models
Maximum Marks	5 Marks

Problem-Solution Fit Canvas

This canvas connects the target user, problem context, existing alternatives, proposed solution and expected change.

Target users Fitness users seeking weight loss, muscle gain, flexibility or general wellness.	User context Limited time and exercise-planning knowledge; needs simple, browser-based guidance.
Existing alternatives Generic workout videos, static plans and manual nutrition research are accessible but may not reflect individual inputs or feedback.	Pain points Difficulty selecting suitable routines, maintaining consistency and adjusting a static plan.
FitBuddy solution AI-generated 7-day workout plan, goal/intensity-based tailoring, nutrition/recovery tip and feedback-driven plan update.	Expected user change Move from uncertainty to a structured routine that can be reviewed and refined without restarting the process.

Fit statement

FitBuddy addresses the documented need for a simple, personalized, revisable fitness routine by combining structured AI generation with a feedback loop and persistent plan storage.
