Project Name	FitBuddy - AI Fitness Plan Generator using Gemini Models
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability

The source package follows the modular structure described in the FitBuddy documentation. AI generation, routing, database access, templates and tests are separated for maintainability.

app/main.py Application entry point and route mounting.	app/routes.py Home, generation, feedback and admin routes.	app/gemini_generator.py generate_workout_gemini() for 7-day plans.
app/gemini_flash_generator.py generate_nutrition_tip_with_flash() for tips.	app/updated_plan.py update_workout_plan() for feedback revisions.	app/database.py SQLAlchemy models and persistence functions.
app/schemas.py Pydantic input models and validation.	templates/*.html index.html, result.html and all_users.html.	tests/smoke_test.py Basic local smoke checks.
